CORPORATE OVERVIEW

Focus on your **business,
we take care of the rest.**

about us

BPK Tech is a custom-software development company having its headquarters in Minnetonka, MN, and branch offices in Canada and India. Backed by a proven track record of success, BPK Technologies has over 140+ customers across the world. We use Agile-methodology to run all our projects from sales, marketing, HR, development, and deployment.

The mission to provide value added software services to our customers was started in the year 2010 with a vision to influence businesses with technology like never before. The founder, Rajeev Bhatia spotted the challenges businesses were facing in this increasingly-dynamic business ecosystem. Enticed to eliminate the survival threats to the organization and help them become productive, Mr. Bhatia handpicked the best of bests from the industry to form a team of tech vets who now work round-the-clock to enable the realization of his vision.
